

A Present for ME!

Look what I got!

It's a new Wacom Tablet Bamboo Fun. I LOVE it! I had an older version and it was getting beat up so it was time for a new one. If you aren't familiar with them you are missing something. You can use the pen just like a mouse. When I am drawing things for the website, www.makinglearningfun.com, I use it all the time. It is easy to adapt to. It was a present to myself...from myself. Sometimes those are the best presents.
