

# Charity Quilt: It takes a village version

Ronda has been at it again. What a productive lady!!

I love this first quilt what a bunch of scrappy fun!!

Ronda writes:

*"Nancy K. in Florida sent me some finished blocks along with lots of pieced 6 1/2" squares to make more blocks like the ones she had finished. I came up with some plain 6 1/2" squares that were in a box that you had sent me. So together with Nancy's pieced squares and your plain squares, I made enough blocks to make a large lap quilt."*

*"The backing fabric came from Gloria S. in Lomita, California. And the binding is from my stash. This will go*

*to the Gospel Mission. I think this will be a good quilt for a guy."*

Wow!! Look at all the people involved to get the quilt together. Never be afraid that a donation isn't "wonderful". There are talented people like Ronda who can take leftovers and turn them into some very nice looking quilts.

Ronda sent a pictures of second quilt too.... *"All the fabric, including the backing, in the second quilt came from Judy M. in Lynchburg, Virginia. My intention was to make a queen sized quilt that I could donate for a fundraiser, but after getting it to lap size, I changed my mind and decided it was big enough. It will still go for a fundraiser."*

*"The pieces are cut at 1 1/2" and finish at 1". I have enough of this same fabric left to make another lap quilt, but I will find a pattern with bigger pieces!"*

WOW. Two beautiful charity quilts. Thanks so much to all who donated things to Ronda so she had materials to work with and a HUGE shout out to Ronda. She can really work some magic!! Thank you, thank you!!

By the way, whatever you did to fix your blog worked! Yay! I didn't have any problems reading it today.
