

Quilting Donations!

Read through this entire post to find links for people looking for help with charity projects.

Hello all...This page FINALLY got the charity donations page put together. It's taken some work and time but it's here and ready to be revealed. We have LOTS of people and organizations that are awaiting your donations to their worthy causes. You might remember a bit ago I got a bunch of left overs from projects and was looking for homes for them. One of the people who I sent things to was Ronda. Already she has worked her magic and made UFO blocks into an awesome quilt. See...

This could have easily spent it's life unfinished but given to the right person who has a talent for putting things together it can instead give warmth and comfort to another. Doesn't it look great!

I couldn't be happier that this is going to get used and loved. Thanks for your hard work Ronda!

Ronda writes....

Hi Jo,

I just finished another one of the quilts you sent my way. I'm not sure what the original quilt maker had in mind when she started this one. All the blocks were already constructed and the center was all sewn together. Having no pattern or any more of these fabrics (or anything close to it), I had to come up with a plan on my own. It turned out okay, such pretty fabrics she used! I love the colors! I had the backing in my stash. The goldish color compliments the star points and it has little pinkish flowers on it to tie into the top. Ronda

Isn't that awesome!

Well Ronda, as well as other people, are looking for the goodies you no longer want. All things sent will be made up and passed on to charities. The people/groups have said that they will forward on pictures to me of things that they make with donations. Some people make scrappy quilts so you won't be able to recognize specific fabrics but know they are going for the good of others.

I am leaving the list of the people here on this blog post. For future reference I will be having Kelli put a tab up at top so you can reference and get back to the listing should you decide to do some spring cleaning or come across thrifted fabric you aren't interested. Please take time to read through the listings. One place is looking for sheets that they use for quilts that go over seas for Lutheran World Relief. There is a variety of needs. I hope you can help fulfill some.

I think it's so awesome that quilters are helping quilters.

6-Gladys Wahl

gladyswahl@yahoo.com

Need: Fabric, for adults. Backings, either yardage or sheets
Most of the quilts I make go to the Iowa Veterans home at Marshalltown, IA. These range in size from wheel chair to lap, and up to twin size. There are men and women so about any fabric will work, except kids novelties, and seasonal. Most of my quilts are scrappy, and I can always use scraps, and pieces and parts that you have made, such as; for patches, nine patches, 1/2 square triangles and ect. Neutrals are always needed..

Need: unfinished quilts and kits would be welcome

4 of us donate about 20 quilts a year to Hospice and would like to increase that number. My guild donates to children in hospital and battered women's shelter – number varies, about 20 a year.

8-Sandra Hemmingsen

hemmingsen@iowatelecom.net

Need: Anything quilt related; fabric of any size, batting of any size, tools, thread. I will also work with unfinished projects or orphan blocks. I love the challenge of trying to finish these projects.

I work with several groups which do charity quilts and other fabric items. I am chair of my church's quilt group. We have made quilts for several charities and missions. We had a member of our church serve as a nurse missionary in Kenya and we made quilts for her for over 7 years. One year we sent about 50. We made approx. 25 quilts that went to a missionary that serves burn victims, many of them children. We also make a quilt for the babies born to members of our church family. We have made quilts for Head Start and for the local hospital to be given to patients in distress. Last year we made quilts that were given out at a major mission project we have had for a number of years. "Winterize Your Neighbor" gives to anyone who comes items they need to keep warm during the winter months. This includes all items of clothing including shoes and boots, bedding, and we even gave a Christmas tree to a family. All items are donated by our church members and other churches and people of the community. This year we will be giving quilts that we have made to this project. Bedding seems to be a very needed item. I also help with quilts at another local church. They also make quilts that are given to Methodist mission projects, families in distress, the local hospital for patients in distress, and other places in need. Fayette County has a group of quilters who are making quilts for the World War II veterans of the county. Red, white, and blue fabric will also go to this group. I have been given fabric in the past and have contributed to these groups. This I continue to do and if I do receive any gifts it will be shared with these groups.
