

That DOVE Ad

There's an auction happening here on the blog. [You can see what is available and bid here.](#)

I have been getting reports about a "Dove ad" messing with the blog. We are on it and trying to fix it. Fixing isn't as easy as a push of the button. Please be patient. I have heard that people viewing via their phone are not having the problem. It's super frustrating for me as I've yet to see the ad personally. If anyone does get it and know how to take a send a screen shot of it, please do. You can send it to my email at rogjok@iowatelecom.net. THANKS.
